Product Profile

Saba – High-quality sewing thread for everyday use. This highly durable 100% polyester corespun thread features best sewing properties and seam quality.

Its high tensile strength, abrasion resistance, thread purity, smooth gliding performance, high thermal resistance and its well-balanced elasticity guarantee easy use and best results.

Due to its well-balanced construction, Saba runs well in every application – from manual sewing on high-speed sewing machines to high-tech sewing automates – Saba proves to be a real all-round talent.

Its full range of sizes and strengths qualifies Saba for almost every application. With its extremely large range of colours – combining standards and trends – you will always find the right colour tone.

Fields of Use

saba 8

The coarse sewing thread for shoes, belts, purses and suitcases. For striking ornamental seams on traditional costumes, coats and table cloths.

saba^C 25

For seams that must withstand extreme stress like upholstery, tents, tarpaulins or work clothes, and for coarse ornamental contrast seams, on denim jeans for instance.

saba 30

The standard ornamental seam for men's fashion, women's wear, work, sportswear, and children's wear, especially for eyelet buttonholes with emphasised purl seams and for contrast seams on denim jeans. Also available in multicolour.

saba^C 35

For ornamental seams that can be safely processed in automates, for jeans and other seams exposed to stressful conditions, for upholstery, mattresses and heavy protective clothing, and for awnings, tents and tarpaulins.

saba^C 50

For ornamental seams on leather clothing and denim jeans and for upholstery, mattresses, leather goods and slippers.

saba^c 80

The sewing thread that can be safely used in automates: for all seams exposed to stressful conditions on trousers (for example back seams), for work clothes, mattresses, comforters and eyelet buttonholes (needle and bobbin thread), buttonholes on underwear (needle thread) and decorative seams. Also available in multicolour.

saba^c 100

The sewing thread for all seams exposed to stressful conditions on women's wear, men's fashion, children's wear, work clothes and sports wear.

saba^c 120

The universal sewing thread for women's wear, men's fashion, swimwear, underwear, knitwear and fabrics with the tendency to pucker and for all sewing automate applications in shirt, blouse and dress production, and for all overlock seams. Also for sewing bed linen and curtains, and as needle or bobbin thread in mattress quilting.

saba^c 150

The corespun thread for fine seams on light fabrics that tend to pucker in women's wear and men's fashion. Also for delicate knitwear and underwear, and for high-quality overedge seams.

saba 200

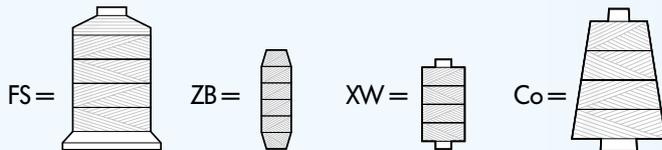

High-quality and fine seams for perfect overedging. For neatening pockets, for linings, light shirts and blouses.
